

History of Changes to Fresh Start 3.11

9/26/2013

Note: This version incorporates all previous changes and corrections to the 3.0 curriculum. The 3.11 revision was done to make all PPT files compatible with PowerPoint 2010 and to incorporate references to the web-based resource ***Fresh Start in the Search Process***. Almost all web-based references required up-dating and have been changed throughout the curriculum. Unless otherwise noted, changes are primarily to up-date any web resource citations, correct typos and formatting.
